HUNDRED KILLED IN WRECK

GARY, Ind., June 22.—More than 100 persons were killed or injured when a Michigan Central army equipment train crashed into the rear end of a Hagenback-Wallace circus train at Ivanhoe, near Gary early today.

Seven dead have been brought to Gary and four were taken to Hammond, Ind.

Seventy-eight injured, thirty seriously, are in Gary and Hammond hospitals.

Four Pullman cars on the rear end of the circus train were telescoped. Practically every car in the circus train was demolished.

Fire broke out in the wreckage.

WORK OR FIGHT RULE EXPLAINED BY CROWDER

Washington, June 22.—Instructions to draft boards were issued yesterday by Provost Marshal General Crowder explaining and amplifying the work or fight order under which after July 1 all men of draft age, regardless of their classification, must engage in employment held to be productive or join the army.

"When it has been determined that a person in deferred classification is an idler or is engaged in non-productive service," says the instructions, "the classification and order number of such person will be withdrawn and he will be immediately inducted into the military service."

Several specific rulings are made as to the effect of the order upon certain classes named as non-productive. In the case of sports and amusements, the language of the order is repeated with emphasis, but without mentioning professional baseball, an expected announcement concerning which had been awaited with keen and widespread interest. In making public the instructions, however, officials of General Crowder's office said baseball playing "at present" is regarded as non-productive, though there will be no ruling until an individual case has been appealed from a local board.

Managers, cooks, clerks and other employees not engaged in the actual serving of food and drink in public places are exempted from the section declaring such service of food and drink non-productive. Store executives, managers, superintendents and heads of special departments; traveling salesmen, registered pharmacists, delivery drivers and men doing heavy work are not included among the clerks and salesmen of mercantile establishments classed as non-productive.

Chauffeurs, "public and private," are eliminated from the non-productive class unless they engage in work held to be non-productive, in addition to their mechanical duties. This feature of the instructions attracted attention because it classed as useful a family chauffeur, who performed no other service, and would send him to the army if he also acted as butler or handy man around the house.

The boards are directed to apply common sense in considering withdrawals of deferred classification privileges, and to aid registrants in making necessary changes in employment by furnishing lists of those summoned for examination to the United States employment service.

ARMY CASUALTIES

Washington, June 22.—General Pershing today reported 153 casualties, divided as follows:

Killed in action 52; died of wounds 26; died of disease, nine; died of airplane accident 1; died of accidents and other causes 10; severely wounded 37; wounded (degree, undetermined), 2; missing in action 15 and and prisoner 1.

J. J. Dougherty of Toledo, is listed among those who died of wounds. Privates H. M. Mathia of Cincinnati and N. Yushik of Cleveland are among those wounded severely.

ARMY OF SLAVS IN AMERICA WANT TO FIGHT

Washington, June 22.—More than 500,000 Slavs, until now considered alien enemies, will be fighting against the Central Empires within a year, as a result of the President's recognition of a Jugo-Slav legion.

At present there are at least 750,000 Czechoslovaks and 2,000,000 Poles in this country, according to Captain Gordon Smith, recruiting officer of the Serbian army.

"The majority have had military training in the Austrian army," he said. Many are non-commissioned officers and reserve officers. Two-thirds are unmarried and within the military age. All are willing and anxious to fight.

ASSASSINATION OF EMPEROR ATTEMPTED

London, June 22.—An unconfirmed report on the Amsterdam bourse declares that an attempt has been made to assassinate Emperor Karl, according to a Central News dispatch from Amsterdam today.

AUSTRIAN CABINET MAY QUIT THE JOB

Amsterdam, June 22.—The Austrian cabinet was scheduled to meet today to decide the question of submitting its resignation and of summoning parliament for an extraordinary session, because of the food situation according to dispatches from Vienna.

Premier Von Seydler is reported to have gone to Austrian field quarters to present the government's resignation personally to Emperor Karl.

U-BOAT CHASERS DESTROY WHALES

Philadelphia, June 22.—Masters of ships arriving here report that a number of whales, sharks and porpoises have drifted ashore on the north Atlantic coast between Barnegat and Cape Henry, practically torn to pieces, having apparently been mistaken for submarines and fired at.

Hundreds of porpoises have drifted ashore, all evidently killed by explosions. Many kinds of fish have also been killed, particularly sea bass and sword fish, the skipper said.

SIBERIA WILL FIGHT ADVANCE OF THE GERMANS

Stockholm, June 22.—Developments in Siberia are intensely serious for the Bolsheviks. It is impossible to glean from reports now available whether the movement is counter-revolutionary, but it is most likely that the social revolutionaries of the right are dominating it.

M. Schuvalov, president of the Siberian soviets, recently wrote to Premier Lenin, indicating that all groups in Siberia, including part of the Bolsheviks, were likely to combine to fight German penetration.

He declared that possible inroads in Siberia would necessitate abrogation of the Brest-Litovsk treaty. In concluding he said:

"Siberia will be forced to accept this view point in defense of its interests and will enter an agreement with the Americans which would lead to expected consequences, namely, loans and trade treaties."

This letter never has been made public.

Lenine and his Moscow crowd are likely to resort to a final desperate move to save themselves—calling in the Germans against the democratic and pro-ally factions. They would term this a part of the "necessary policy of compromise, while awaiting a world revolution."

Thus, the dissolution of Bolshevism is proceeding rapidly.

FEW PRISONERS TAKEN

London, June 22.—"A few prisoners were taken and casualties inflicted on the enemy in raids and patrol encounters in the Villers-Bretonneux and Strazeele sectors," Field Marshal Haig reported today.

SOLDIER-LINEMEN RISK THEIR LIVES TO LAY TELEPHONE WIRES AT FRONT

Huge shells, plowing up holes in the ground, often put communication wires between divisions of the allies' troops out of commission during a battle. These lines have to be repaired, sometimes while the battle still rages. The wire men take their lives in their hands when they go out to relay or splice the wires and bury them again. The above photo shows a squad of men repairing wires on the French front.

KAISER'S PEOPLE HYPNOTIZED BY MILITARY GLAMOUR SACRIFICE ALL

By J. W. T. Mason.

New York, June 22.—The full seriousness of the domestic situation within Austria-Hungary is revealed by the decision of the German government to send food into the dual monarchy, drawn from Germany's own scanty supplies.

The Austro-Hungarian food minister, Pawl, has been in Berlin several days trying to persuade the Germans to relieve the famine conditions in the Hapsburg empire. He was unable to convince the Berlin government of the urgency of the situation until rioting began in Vienna and other Austrian towns. The disturbance apparently frightened the German authorities into fearing a revolution in Austria-Hungary. No expectation less serious than this can explain the decision of the Germans to part with the smallest quantity of their own food reserves.

The population of Vienna has learned they can improve the quantity of their rations by rioting. The time must come when Germany will have to refuse to send another carload of food to the dual monarchy. When that situation arises Austria Hungary may follow the way of Russia.

Germany's own internal condition is menaced by granting the Hapsburg demand for food; but Germany is now being governed by a policy of immediate expediency: Whatever postpones a crash from day to day must be accepted by the Hohenzollerns as their only method of procedure.

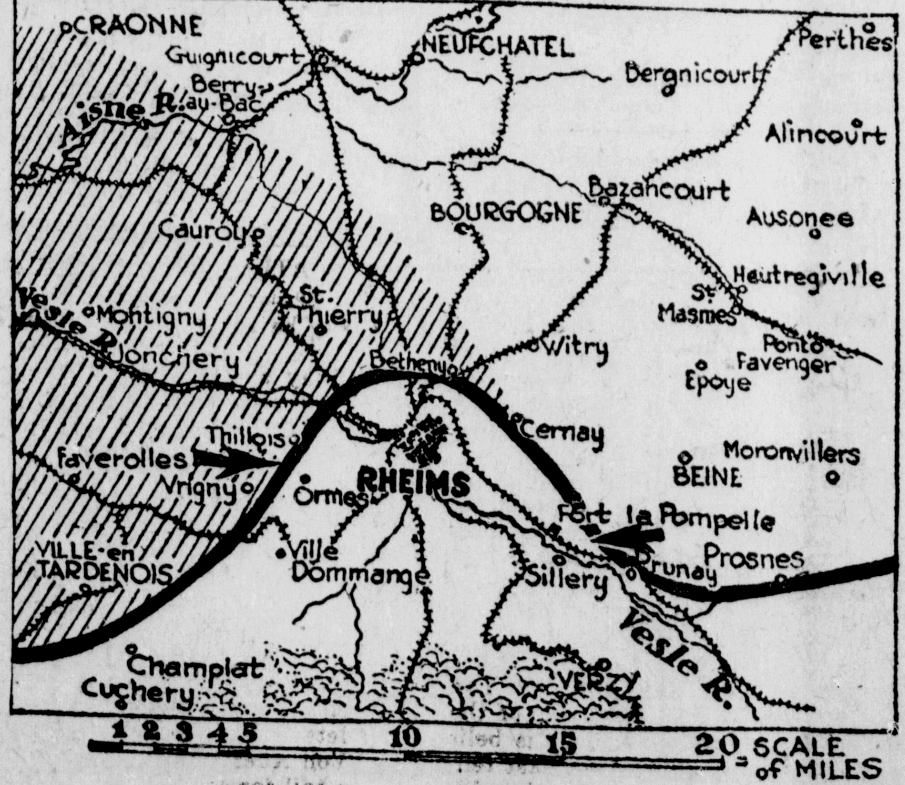

The Kaiser's people, still hypnotized by the glamor of militarism, are willing to accept greater sacrifice than is Austria-Hungary. The necessary inference is that the Austro-Hungarians have begun to fall away from military worship. By attacking the food regulations or the militarists they have secured more food for themselves. This part of the lesson may suddenly come home to the underfed masses of Germany.

VALUABLE NAME.

Chicago, June 22.—Woodrow Wilson's name is valued at \$435 per letter in Chicago. A baseball bearing his signature sold for \$5,650 here when auctioned during the Cleveland-Chicago game at Comiskey park.

Mrs. Wilson's autograph on another baseball brought \$1,400.

FOE SEEKS IN VAIN TO CLOSE WEDGE AND TAKE CITY OF RHEIMS IN DRIVE

The Kaiser's troops have tried repeatedly to obtain possession of Rheims. Loss of the city would be a hard blow to the allies. The arrows in the map point to the extreme points reached in the Germans' attack in their efforts to enter the city. This leaves Rheims as a wedge in the line. The Huns are expected to continue their efforts to close up this wedge and capture the city. But the allies are counting on the troops and heavy fortifications to repel all attacks.

FOOD RATION IN AUSTRIA AT DANGER POINT

London, June 22.—In many provinces of Hungary there is only one-third of one-quarter the food necessary to maintain the population. In health former Premier Tisza declared in a speech to the Hungarian parliament yesterday according to a Budapest Telegraph correspondent at Amsterdam.

The weekly food ration in Austria, the Daily Mail correspondent at The Hague quotes the Arbeiter Zeitung of Vienna as reporting is as follows:

"Twenty-two ounces of bread, one pound of potatoes of which half cannot be eaten; one ounce of black bran mash; one ounce of another mill product; an ounce and a half of fat; six and a half ounces of sugar; one egg; seven ounces of meat and a little jam and coffee substitutes."

The Vienna newspaper says that the meat allowance is obtained "if the applicant waits all night for it."

Food conditions in Germany are becoming worse and there is great discontent there owing to reduction in the bread ration, according to a Dutchman interviewed by the correspondent of The Times at The Hague. The Dutchman had just returned from working in the Krupp plant at Essen, which he left because he could not stand the food conditions.

The German people he added, feared to grumble openly lest they be sent to the front.

The correspondent says that the testimony corroborates what he has heard from many other witnesses and adds:

"One popular saying is that the people will pay 100 marks for a sick dog to eat."

"The war is becoming very unpopular among the workers, but the feeling ebbs and flows with the tide of Germany's success and the English are generally cursed."

The situation at Prague, Bohemia and the industrial centers in that district, says the Neu Frie Presse of Vienna has become so serious that the Austrian government will either be compelled to increase the bread ration or run the risk of still further exciting the working people in the latter event, the newspaper declares. Railway communication would be cut off and a revolution would break out.

GERMANS ESCAPE FROM BERLIN IN TWO AIRPLANES

Copenhagen, June 22.—Four residents of Berlin escaped from Germany Thursday in two airplanes and succeeded in landing safely in Denmark. The occupants of the airplane declared that they fled from Berlin because of conditions there.

The two machines which are of the Albatross type, left Berlin early Thursday morning. Their flight was observed and guardships along the coast were warned. When the machines reached the Baltic, the guardships opened fire and it was at first erroneously reported that one of the airplanes had been brought down.

One of the two occupants of the first Albatross was Dr. G. Nicolai, formerly a professor of physiology at the Berlin university. He is author of a book that denounced Prussian militarism and had been punished with imprisonment because of its publication.

The second Albatross landed in the neighborhood of Rudkoebing with its two German deserters. This machine had been delayed by making a landing on an island to repair a slight defect in the engine.

The two men wore infantry uniforms and one of them had the iron cross.

MAY FLY ACROSS ATLANTIC

Washington, June 22.—A flight across the Atlantic may be attempted before long.

It became known today at the war department that considerable discussion had been given to this problem and that allied representatives had urged it.

First, the Italians suggested flying across in one of their powerful planes, and now it is understood the British are considering the feasibility of attempting it in one of their fliers.

WELL SUPPLIED.

New York, June 22.—George Von Auer, of the Bronx, charged with bigamy is believed by detectives to have at least ten wives. Von Auer was arrested and held under bail for court on complaint of two women, who he is said to have married within ten days. A fiancé was also represented. The defendant's trunk was searched and letters indicate he is married to at least eight other women. Von Auer looks like a German but insists he is a Swiss.

ITALIAN ARMY CONTINUES TO GAIN GROUND

1,420th day of the War, 94th day of the big offensive.

ITALIAN FRONT.—Renewal of heavy rains has caused further rise in the Piave, adding to the difficulty of the Austrian forces on the west bank. Along the middle river, caught between the flood stream superior Italian forces are cut off from all reinforcements, ammunition and supplies, except such food as is delivered in meager quantities by air planes. Sporadic local fighting is underway and mountain areas.

PICARDY FRONT.—British were successful in raids and patrol encounters in the Villers-Bretonneux sector.

FLANDERS FRONT.—Prisoners taken by the British in local operations around Strazeele.

TOUL FRONT.—Americans continued their efforts to clear German machine gun nests out of the northern end of Belleau woods.

The French repulsed a German raid near Hautebraye.

CISE FRONT.—German attempts were frustrated near the St. Mar.

AUSTRIAN-HUNGARY.—An unconfirmed report circulated on the Amsterdam bourse declared an attempt had been made to assassinate Emperor Karl.

CONTINUED DEMONSTRATIONS on the streets of Vienna yesterday resulted in clashes with the police. A proclamation has been issued by the government, threatening severe repressive measures.

Continued bad weather has caused the Piave to rise again, just as it showed indications of receding. The enemy forces on this side are still in a critical position and are forced to depend on limited quantities of food brought over in airplanes. On the lower Piave Austrians have succeeded in freighted armored cars and field guns across in boats, but none of their craft is large enough to transport their heavy guns.

The work of the Italian, British and American airmen is most effective. A number of British aviators, after dropping their bomb and machine gun cartridges, hovered a few feet over the enemy dropping spare parts and tools.

London, June 22.—Italian Counter-attacks gained ground both in the Montello sector and the region of Zenson, on the Piave, it was indicated in over-night official reports.

Elsewhere on the river strong Austrian attacks were repulsed.

"On the Montello yesterday, the pressure of the enemy continued but everywhere he was held by our troops who counter-attacked and gained ground," the Italian war office said.

West of Candell, and west of San Dona Di Piave, on the lower river, repeated attacks by the enemy failed to make any progress.

The Austrian war office said "the struggle on the Carso Plateau and on the Montello increased to special violence. Vienna claimed a total of nearly 15,000 prisoners in the drive."

The German war office reported the repulse of "violent reconnoitering along the whole front."

Local French attacks southwest of Noyon and by Americans northwest of Chateau-Thierry broke down, Berlin declared.

"The French and Americans suffered heavy losses and some prisoners remained in our hands."

AMERICA HAS PASSED MARK OF 900,000

Washington, June 22.—The United States has crossed the 900,000 mark in troops shipped over seas from American embarkation points. We are five months ahead of our regular program.

MARINE CASUALTIES

Washington, June 22.—Marine casualties reported today numbered 31, divided as follows:

Killed in action, four, died of wounds, received in action, 15, and wounded severely 12.

E. E. Small of Toledo is the only Ohio man in the list. He died of wounds received in action.

GOVERNMENT WARNS PEOPLE NOT TO BE MISLED BY AUSTRIAN RIOTS

Washington, June 22.—Government authorities cautioned today against over-optimism as a result of reports of Austrian strikes, peace demonstrations and food riots.

Though the state department and other agencies had reports showing unsatisfactory food conditions and a considerable unrest, it is pointed out these reports have preceded every offensive thus far.

The holding of the Austrian drive against Italy has had a strong reaction within Austria, according to information here. The Austrians are dissatisfied with the slow progress, and it is said nothing short of success there will prevent serious internal troubles.

The attitude of officials is based on these things:

Past experience shows the Teutons manufacture "revolution" stories to make their opponents believe extraordinary effort is unnecessary and that the end of the war is near.

Austria is bound to Germany by debts and a new alliance so strongly that she cannot escape now short of the widest upheaval imaginable—and Germany is now sending her more food.

Announcement soon as to American participation against Austria on the Italian front, however, is expected to further disturb Austrians.

The Ohio War Board Says Today

To prevent defeat, save wheat! The return ticket for our boys in France will be secured largely through American savings of wheat, sugar, meats and fats.

The Food Administration has sent out a warning that wheat is low in the bin. It is true, we are facing an abundant harvest, but we cannot depend upon one crop.

It is just as essential to build up a reserve of wheat as it is to have a reserve of munitions.

The stores are all supplied with substitute cereals. Corn meal is abundant. Save wheat by eating corn meal.

Large quantities of corn meal now in stock are liable to spoil unless consumed.

Just As An Investment!

The War Savings Committee of Ohio is asking that thousands of Ohio investors purchase \$1,000 maturity value War Savings Stamps before June 28th.

Why? Because the money must be forthcoming to defeat the Teutonic alliance, and it is therefore a patriotic duty to lend it to the government.

Why should you help in this particular manner?

First. They are secure. Behind them stands every dollar in the United States. These securities are a first mortgage on every piece of property, personal and private, in the United States—every public building, every store building, every business of any kind, every dollar in the bank, your own included. Their safety is unquestioned.

Second. Their return is liberal. Coupled with the safety, a net interest of 4.27 per cent is liberal. Remember it is net—no taxation, now or future, can touch this investment.

Third. They can be converted into cash with interest in ten days.

You, yourself, and every member of your family, should invest at once. This month you may invest \$834.00; January 1, 1923, you take out \$1,000. No further attention on your part, no worry, no more money to protect your investment, no possibility of loss—Just simply—

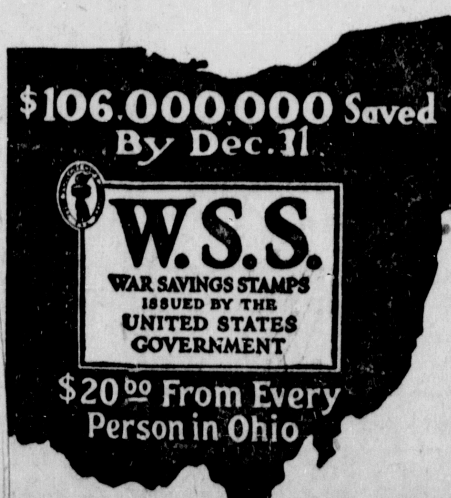

\$1,000 for \$834
\$500 for \$417
\$100 for \$83.40

It amounts to buying gold dollars at a discount for future delivery.

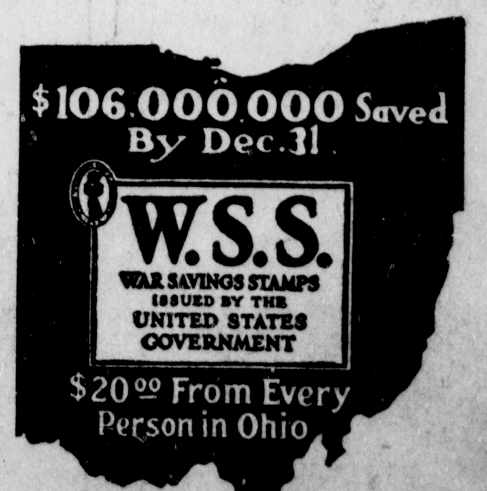

Men and women of means must pay for this war. If you have been blessed with the world's goods, will you pay in the form of a loan, OR MUST IT BE GIVEN UP IN TAXATION?

Make your money patriotic. Don't wait for it to be drafted, as it will be if it isn't loaned.

SHALL WE AS A NATION SINK TO THE PRUS- SIAN LEVEL?

A proposition or proposed law has been introduced in the Congress of the United States, which, if adopted requires that "all registered male persons who have attained the age of nineteen years shall be subject to MILITARY TRAINING in accordance with regulations prescribed by the president—and providing further that the period of training between the age of 19 and 21 years shall be in the aggregate not less than six months."

The proposed law was being discussed a few weeks ago, some favoring while others are bitterly opposed.

Hon. John Sharp Williams advanced the idea that the proposition is ill-timed now, that it is a question which must be determined upon the battlefield of the present war. If we lose this war, if Germany wins this war, then it goes without saying that we as a nation must become and must remain armed indefinitely.

We will have had full notice of Germany's intention to make a world conquest and to exercise world dominion, and we would be fools, indeed, if we did not prepare to prevent that.

But, if upon the other hand, we win the war, as all imagine we will, sooner or later, then we will hope to rid the American people of the menace of universal military conscription, a curse, although it may at times be the less of two evils, but in itself a curse to civilization, to nationality, to progress, to humanity, to education—and shall be able to show the world—as we have for a century, and a third, that NATION WIDE MILITARY TRAINING IS WHOLLY UNNECESSARY for the development of a free and independent progressive country.

Speaking on this subject, in the United States Senate, Hon. John Sharp Williams used the following unanswerable argument.

One of the reasons why I am so ardently in favor of waging this war to a successful termination is that I hope to put an end not only to the menace and threat of universal military compulsory service in the United States, but to put an end to it all over the world.

If we win this war, it will be a most unfortunate thing to have upon the statute books a national pledge for universal military compulsory service, for which we are neither prepared by our past history nor invited by our ideals as to the future. A nation which lives in peace times under universal military compulsory service is a nation of slaves to exactly that extent.

Whip Germany, whip the Teutonic junkerband, whip the military caste and the House of Hohenzollern, if possible; and then be able to say to the entire world, "The world is not only safe for democracy but it is safe for liberty. It is safe for progress; it is safe for individual initiative; and not only is it safe for democracy but we have made democracy safe for the world."

To put upon the statute books a sort of pledge that no matter how this war comes out we people of these United States are going to sink to the level of Prussians and Austrians and Bulgarians, to the level of the condition of the continent of Europe, living in armed camps, one against the other, suspecting one another every day, prepared to pounce upon one another every week. I say is going too far.

I repeat it is a very unfortunate thing that this great question which must be left to be determined upon the battlefield—if we win to be determined in one way and if we lose to be determined in another way—should now be presented to this body.

If for one am not prepared to pledge myself that these United States will become an armed camp with universal compulsory military service, subtracting the resources and the money and the manhood of the Nation from progress and peace and civilization for all time to come.

We have had a new Easter of American patriotism. The god of justice and of righteousness and of American patriotism has been resurrected once more. Shall we rise to the German level. What level? The level of barbarians; the level of war seekers; the level of institutions and societies founded upon a military past, seeking throughout all the years of peace to prepare itself for war provoked by itself. Whenever you turn a people into an armed camp, you at once give them the ambition to provoke war in order to show how well prepared they are for it.

REV. LITTELL WILL SOON GO TO FRANCE

Friends here will be interested in knowing that Rev. J. H. Littell, D. D., pastor of the Third United Presbyterian church in Chicago, has secured a year's leave of absence from his charge there and will soon go to France in the interest of the Y. M. C. A. war service.

Rev. Littell has been selected as superintendent of a hut in France, and he is now undergoing the seven day training for the overseas work at Columbia University, New York.

There are 357 men in his class, and Rev. Littell has been selected as one of their leaders until they go on duty in France.

Although Rev. Littell handed in his resignation to his congregation in Chicago, the church refused to accept it, and would grant him but a year's leave of absence to carry on his Y. M. C. A. work.

In the meantime, Mrs. Littell will remain in this city with her mother, Mrs. George Kingsbury of Church and West streets.

GIVES AID WHILE SHELLS BURY HIM

Major Paul T. Dessez.

The story of the splendid work of Major Paul T. Dessez of Washington, regimental surgeon with the American forces in France, has just reached this country. Part of the story of his heroic work tells how he was dressing wounds of wounded men in a barn at the front when a shell partly wrecked the building and hurled debris on him. He kept on with his work until all the men had been taken care of.

Gold in Urals and Siberia.
Russia's chief sources of gold are in Siberia and the Ural mountains, about one-fourth of the product being obtained from auriferous veins. In the year before the war the gold output was around two million troy ounces, of which considerably more than one-half came from Siberia. Amalgamation and cyanization were very little practiced. The "worked out" deposits were left to the devices of the peasants, who work with the very simplest appliances and are consequently unable to recover all the gold from such deposits. With the employment of better technical methods many of the older deposits can be worked by chemical means.

LITTLE LONGER TO WORK.

There is just a little bit longer to work in the old war garden now.

Friday was officially the longest day of the year, but there will be, practically no change in time until after July 1, when the days begin to grow shorter.

With the clocks moved up an hour, sunset for four or five days starting Friday does not come until considerably after eight o'clock, and it is twilight until well after nine o'clock.

The day officially ushered in the summer season, and from now on the days will grow shorter.

Coming of Night.

Shadow creeps over lawns toward the lake, still radiant with day. Black and twittering, a bird picks its little path, delicately, near the border. The stillness of twilight reaches through the trees and seizes at length this small object. The immobility of its tiny organism is more wonderful than the immense stretching quiet of water and sky. From its glossy back the sun withdraws his pale fingers lingeringly and reluctantly yields it to the night.—Exchange.

WHEAT DESTROYED BY HAIL STORM

Several farmers near Bellbrook lost their entire wheat crop in a hail storm which swept over that vicinity a week ago last Monday.

While the hail stones were not large the storm was heavy and in places where it was the most severe the entire crops of wheat have been destroyed. Three or four crops were completely destroyed by the hail and no attempt will be made to cut them. In such cases the farmers will turn their hogs into the wheat fields, so that the wheat will not be an entire financial loss, being used to fatten the hogs.

Ernest Maxwell of near Bellbrook was one of the sufferers from the hail storm and there were several others whose crops were destroyed. The hail did not fall in the village of Bellbrook at all.

ENGAGEMENT OF FORMER XENIA GIRL ANNOUNCED

Announcement of the engagement of Miss Virginia Wright, daughter of Mr. and Mrs. J. W. Wright, of Troy, formerly of this city, to Mr. Cosley Cramer, was made at a charming luncheon given by Miss Mary Miller at her home in Troy, Friday.

Significant of the fact that Mr. Cramer is entering the army next Monday, were the decorations of red, white and blue throughout the house.

At the larger table, where were seated Miss Wright and her closer friends, the centerpiece was an immense red, white and blue bouquet formed with roses, carnations and larkspur. Red white and blue ribbons, their ends hidden within the bouquet, extended to each cover. When the girls drew these ribbons, Miss Wright's ribbons were found to be attached to her engagement ring, while her chum, Mrs. Golda Finniger Wilgus, a recent bride, drew out a small envelope containing the personal cards of Mr. Cramer and Miss Wright. No date for the nuptials was given, as the marriage of the young couple will not take place for some time.

Miss Wright, an unusually lovely girl, was particularly charming wearing a frock of pink organdie with a blue girdle, blue and pink being the colors of the Beta Theta Pi fraternity, of which Mr. Cramer, who is a Dennison man, is a member.

A charming feature was the delivery to Miss Wright by a charming little boy, the son of one of the guests, of a quaint bouquet in pink and blue, the gift of Mr. Cramer. The little chap carried the Colonial bouquet of roses and baby breath, on a silver tray, and presented it to the bride.

News of Miss Wright's engagement is of much interest in this city, which was Miss Wright's former home. The Misses Pauline and Katherine Shoup went over to Troy for Miss Miller's party. Mr. Cramer, who is a member of a prominent Troy family, is a nephew of D. W. Cosley of this city.

COFFEE UNDER BAN

Deciding that coffee is a non-essential the United States Food Administration has declared that no more coffee will be available to the public after the present supply is exhausted until the termination of the war. This statement was contained in an official communication Friday by the Hamilton County Food Administration.

Fulcrum Most Important.

Levers are of little use without something to work on. You can't get work done without the fulcrum. Its relation to the task and the lever is vital. Without a fulcrum with properly adjusted height and distance from the object to be moved all the levers in the world will be of little use. But put it in the right place and the greatest tasks can be done with ease. Weights that no one would think of lifting are moved with scarcely any effort. If the task is too big wise men change the fulcrum. That is, they move the thing on which the lever works nearer the object to be moved. Or it may be they lower the fulcrum a little so as to move the object by easier stages. This is the vital point. When properly related to the task a child on the long end of the lever can do the work. Such is the importance of having the fulcrum right.—Exchange.

Migratory Birds.

One of the many explanations that have been offered to account for the fact that migrating birds are able to find their way by night and in cloudy or foggy weather is that they are sensitive, in some way, to currents of terrestrial magnetism, and therefore direct their flight by the magnetic meridians. This suggestion was put forth by M. A. Thauzies, a French pigeon-fancier, who declares the carrier-pigeons make poor flights during the occurrence of magnetic storms. He also asserts that the general use of wireless telegraphy has diminished the reliability of these birds to a surprising extent.

NEW PASTOR AT CLIFTON INSTALLED

With interesting services, and in the presence of a large congregation, the Rev. William T. McKinley was installed as pastor of the Presbyterian church at Clifton, Friday night.

The Rev. D. L. Myers, presided at the installation, and also preached the sermon. Other pastors assisting were the Rev. Robert H. Dunaway of Troy, who delivered the charge for the pastor, and the Rev. Daniel Brownlee, D. D. of Dayton, who gave the charge to the congregation, and the Rev. E. G. McKibben, pastor of the United Presbyterian church at Clifton. Special music was furnished by the choir.

Rev. McKinley was called to the pastorate of the Clifton church, from the church at Johnstown, O., and he took charge of the Clifton congregation several weeks ago. Already he has won the hearts of his congregation and of the Clifton people in general.

CLIFTON

Mrs. Walter Corry has been entertaining her sister and two children from Akron, Ohio, the past week.

Many of our citizens are working on the Springfield pike near the E. S. Kelly farm. Others have been in the large alfalfa fields on the John Bryan farm for the past two weeks.

Installation services for the Rev. Wm. McKinley were held at the Presbyterian church, Friday evening. Rev. Daniel Myers, of Dayton, presided and preached the sermon. The charge to the pastor was given by Rev. Mr. Dunaway, of Troy, Ohio, and the charge to the people by Rev. Dr. Brownlee, of Dayton.

The body of little Dorothy Alexander, who died at a St. Louis hospital, was brought here for burial Thursday morning. Services were conducted by the Rev. Mr. McKinley.

A disabled aeroplane, which fell near Cedarville, was taken through here on an immense truck to Wilbur Wright Field Tuesday afternoon. The aviator was not severely injured.

The suppers of Mrs. Laura Printz are proving attractive to motorists from Springfield. A party of thirty-five were here Wednesday evening.

Messrs James, Alfred and Arthur Swaby and Mr. Leonard Flatter are enjoying a week in Chicago.

THEATERS

BIJOU

No finer conception of Italian characters has ever been given either on the legitimate stage or on the screen, than the artistry in this branch of acting which is shown by George Beban. True to detail in makeup and expression, Beban fairly lives the characters he portrays and his work is always of high quality.

All this talk about Beban is because this really wonderful actor is coming to the Bijou Theater Monday night only in the Lasky-Paramount production "Jules of the Strong Heart" a story of enthralling interest, and directed by Donald Crisp. The scenes are laid at Hooquiam, Washington, where Xenia boys are now working as members of the spruce division and where Lasky has a big studio. Beban is supported by Helen Eddy, Charles Ogle, Raymond Hatton, Guy Oliver, Ernest Joy and H. B. Corbenter all of the brilliancy of stardom.

Orphium.

"Betty Takes a Hand" is a game of hearts and blunders with little Olive Thomas, carrying the action all through it with her wonderful grace and charm of acting. It is produced by Triangle and will be shown at the Orphium Monday night only. Miss Thomas is supported by Charles Gunn, Frederick Vroom, Bliss Chevalier, George Hernandez and others.

STARRY FLAG IN SHRINE OF JOAN

By Frank J. Taylor

United Press Staff Correspondent
With the American Expeditionary Forces at the Front, May 28.—(By Mail.)—With characteristic French appreciation the Stars and Stripes have been placed in a position of honor in the church of the little village of Domremy, home of Joan of Arc.

Across from the iron-fenced yard with the tall evergreen trees and the tiny house once the home of Joan of Arc, is the old church in which Joan used to worship and give thanks for France's success. In it are the flags of the principal allied nations.

But there is one place different from the ordinary flag hangings on the columns of the old church. It is a sort of special altar in one corner sacred to the memory of Joan of Arc. To the left as you face this altar is a bright new American Stars and Stripes while to the right is the flag of France with the figure of Joan on her black horse engraved on the white bar of the tri-color. There are many tricolors in France, naturally, but this seems the only one on which an additional figure is allowed.

Another bright American flag is in the beautiful church on the hillside back of sleepy Domremy in which Joan saw her visions. Domremy is on one of the main roads back of the American sector and never a day passes without many doughboys and officers stopping to visit the home of Joan of Arc and the churches in which she was inspired.

The simple old French woman, a direct descendant of the family of Joan of Arc, whose husband is keeper of the place in times of peace, does her best to explain things to the Americans. She is sorry she cannot speak English, she tells you, but she is "too old to learn it now." So the doughboys listen with respect to her hisping French and never leave without giving the kind old soul a few coppers and many a "merci beaucoup."

MANUFACTURERS MEET IN DAYTON

Dayton, June 22.—Because Clark county was insistent upon withdrawing and forming a sub-district of its own, the manufacturers' meeting here yesterday afternoon to form a subordinate body of the tenth region, War Industries Board, were obliged to appoint a committee to confer with the regional chief, Edwin Gibbs, of Cincinnati, and determine the entire matter of the constituency.

Ninety manufacturers of Montgomery, Clark, Darke, Miami and Greene counties participated in the meeting held in the Greater Dayton Association rooms. Probable county of the original six in the Dayton district, was not represented. The five delegations prior to the meeting held caucuses to choose county chairmen.

The county chairmen reported at the meeting are: Montgomery, F. A. Wagner; Greene, E. H. Finlay; Darke, C. E. Breaden; Miami, Charles Jeliff; Clark, P. A. Lewis; Preble, no representation.

KAISER OPENLY ATTACKED IN GERMAN NEWSPAPERS

Geneva, June 22.—Several German newspapers openly attack the speech made by Emperor William at German great headquarters on the occasion of his anniversary visit.

The Post Munich says that the feast could have been celebrated by a measure of clemency and humanity instead of with a speech of warlike tenor against England without containing words of thanks to his own people. The paper concludes that the Anglo-Saxon races are powerful enough to accept the emperor's challenge.

EXCESS PROFITS ON THE RISE IN SPITE OF PRICE FIXING

Washington, June 22.—Excess profits have risen rapidly since this country entered the war, despite price fixing and other restrictive measures, according to treasury department data now in the hands of the house ways and means committee.

This data, which covered profits of every line of business, in addition to profits of many individuals concerns, is to be used by the committee in framing the new revenue bill which will be aimed to raise \$8,000,000,000.

The figures discount absolutely the plea from big financial centers that the government price fixing policy had cut profits to such an extent that the committee would be hampered in levying taxes, committee members declared.

Some coal firms, for instance, show a profit as high as 2,000 per cent, although coal was one of the first commodities on which prices were set.

CALL IS ISSUED FOR ONE THOUSAND NEGRO REGISTRANTS

Columbus, Ohio, June 22.—A call for 1,000 negro registrants to go to Camp Sherman, Chillicothe, Ohio, during the five-day period beginning July 16 was issued at state draft headquarters. County quotas under the call have not been assigned.

In another call state draft officials ask for 103 automobile mechanics to be sent to the Toledo University, Toledo, for training July 15 and 300 carpenters to be sent to the Ohio Mechanics' Institute, Cincinnati on the same date.

Both contingents are open for voluntary enlistment.

PROUD DAY WHEN BOYS GET CROSSES

By FRANK J. TAYLOR

(United Press Staff Correspondent.)
With the American Army at the Front, May 30.—(By Mail.)—"Your blood just wouldn't keep quiet in your veins as you stood on that hill and watched the boys marching by in waves with band playing good old American music and the Stars and Stripes waving over them. Believe me, it's the best flag in this world, boys. I don't know why, but my throat was throbbing and I felt like bawling."

The spontaneous words of a soldier as he told his mess-mates of the citation by the French army of the 104th regiment and 122 Massachusetts men for their bravery in repelling the Germans in Apremont Woods are too vivid to be lost. He was a Massachusetts man, too, from another regiment, and he had been privileged to watch the Croix de Guerre ceremony. Imagine yourself on the crest of a hillside slope surrounded by woods and listen to his story.

"The band struck up with real music and led the boys to the field. They'd just formed three sides of a square, and the fellows who were going to get the Croix de Guerre lined up across the open space in it, when Heinie let go over Siecheprey way with a lot of his heavies. 'Course we didn't get anything but the booming. It mixed well with the band, especially when our boys slammed back two and three to Heinie's one."

"They didn't slow up the doings a bit, and it made 'em all the more appropriate. They played the Star Spangled Banner and Marseillaise, and then the French general goes down the line pinning the little green ribbon and the cross on each fellow. Gosh, the way their chests stuck out, and I don't blame them. Who wouldn't like one of these crosses!"

"But I'd rather fight two Heinies single handed than stand in line. I guess a lot of those boys would rather do it, too. One fellow fainted dead, when he got his Croix de Guerre. Gas, shells and Heinies never phased him, but he couldn't face this."

"Our general went along, too, and shook hands with each man, and told him something. I asked one chap what the General told him and it was 'Cheer up, it's nothing against you!' Most of the boys needed that kind of advice, for they took it awfully seriously, even the two chaplains who were decorated for carrying fellows in under hell-fire."

"After the crosses were all pinned up, the generals with their staffs and the boys with the Croix de Guerre on them went up on the hill to watch the regimental drill. Those boys pulled off a proud parade, too, on that hillside. They looked just like waves going across the hillside, for the old khaki made the companies blend into the color of the woods and the ground. And last came the machine gun companies, with mules pulling their carts just as proud as the rest of them."

"They had the new Massachusetts flag which just came out there and with the old Star Spangled Banner, it was some moving picture, boys, and a great day for Massachusetts."

What the Massachusetts man forgot to tell his messmates was that Fate had played a pretty trick of history when it decreed that these descendants of the Plymouth Fathers, of the heroes of Lexington, Concord and Bunker Hill, should be the first to bear the brunt in the present battle for liberty and democracy.

DON'T ABUSE YOUR STOMACH--IT'S AN ORGANISM THAT WILL NOT STAND FOR IT.

IF YOU MUST EAT FAST--IF YOU MUST EAT AT ALL HOURS-- IF YOU MUST EAT ALL SORTS OF COOKING; HELP YOUR STOMACH BY TAKING PEPSINCO.

Hundreds of traveling men who never ate a meal without anticipating bad after effects, now follow every meal with a Pepsinco and never fear the results of poor cooking and hasty eating.

Pepsinco is an efficient aid to nature because it acts almost identically the same as the gastric elements in a normal stomach. It is safe and sure, acts quickly and is convenient. If your food sours; if your breath is bad; if you have heartburn; if you bloat; if you are troubled with sick headache; if you are bilious and get up with a nasty taste, stop at the drug store and get a small package of this perfect digestant Pepsinco. Do this and your food troubles will be over, and you will enjoy that you eat.

Take advantage of this offer and get a free trial package of this great remedy.

Mrs. R. says: "I received your trial treatment of Pepsinco and must say that it was the first remedy I have found to help my stomach. I will never be without Pepsinco from now on."

You send for a trial treatment; it is FREE and will be gladly sent to you if you will send your name to The Neuro Pharmacal Co., Wapakoneta, Ohio.

Everyday Etiquette

"When a calling acquaintance leaves cards for a friend who is in trouble and does not intend to go inside the house, how should she present them," asked Mrs. Charity.

"She should hand the card to the servant who opens the door, saying, 'For Mr. and Mrs. Blank,' or for 'Miss Blank,'" said her friend.

In Mass Formation.

We've never had time yet to go up and ask that eminent biologist at Ohio State university how often under natural laws neighbors' cats are supposed to have kittens and can only say in a general way that they seem to be coming in mass formation.--Ohio State Journal.

SKIN TROUBLE ON LIP AND CHIN

Face Looked Awful. Water Blisters Itched and Burned. Tried Many Remedies.

HEALED BY CUTICURA SOAP AND OINTMENT

"My daughter had a breaking out on her upper lip and chin for four weeks. It was like water blisters and would itch and if she scratched they would irritate and burn. They seemed to spread and her face looked awful. For four weeks we tried many remedies but they seemed to make the eruption spread more. Then I got a free sample of Cuticura Soap and Ointment, and now she is all healed, with one cake of Cuticura Soap and a half a box of Cuticura Ointment." (Signed) Mrs. W. Ferguson, Upper Sandusky, Ohio, July 9, 1917.

Having obtained a clear healthy skin by the use of Cuticura, keep it clear by using the Soap for all toilet purposes assisted by touches of Ointment as needed. Nothing better at any price.

Sample Each Free by Mail. Address post-card: "Cuticura, Dept. R. Boston." Sold everywhere. Soap 25c. Ointment 25 and 50c.

JAPANESE ARE CHANGING THEIR NATIONAL SPORT; DIAMOND GAME IS SUCCEEDING WRESTLING MEETS

The wrestlers' nine, a Japanese baseball team ready for a game. Smaller picture shows Jap wrestlers in action.

An important evolution is on in Japan. The wrestling game, the one sport of the nation for centuries, rapidly is giving away to baseball, the American game. Baseball teams have been organized all over the country. Some of the famous wrestlers have organized a team, known as the Wrestlers' Nine, and are booking games. The restlers are almost a race apart. They still cling to their topknots. They play hatless.

REV. W. R. GRAHAM IS ARMY CHAPLAIN

The Rev. W. R. Graham, of Rushville, Ind., formerly pastor of the Presbyterian Church at Yellow Springs, has been made army chaplain at Newport News, Va., with the rank of captain.

Rev. Graham has been doing army work for the Presbyterian Church at Newport News for six months, and the excellence of his work there attracted much attention. When the army chaplain at that post went overseas, he was recommended for the place. Rev. Graham has been superintendent of work for Evangelist Beiderwolf, who has been holding evangelistic services at Newport News, and was instrumental in securing the money with which to erect the big tabernacle for the meetings.

In one day he raised \$5,000 for the work in Philadelphia.

Captain Graham has been granted a ten days' furlough, and he is expected in Cedarville to spend the time. Mrs. Graham is with her mother, Mrs. Louise Iliff, in Cedarville.

ANTI-LOAFING LAW BEARS MUCH FRUIT

The anti-loafing proclamation issued by Governor James M. Cox has borne fruit in abundance throughout the state.

State officials state that there never has been such a rounding up of tramps, hoboes and vagrants in the history of the state, as was the case this spring. A compilation is being made of the number collected and put to work under police orders in the state.

Van Wert county is in the lead of other counties of the state in regards to the prosecution of the anti-loafing law and so far eleven men have been sent from that county to the state penitentiary on charges of tramping, each serving a sentence of one to three years.

Chief Canaday and the local police have also been active in co-operating with the Governor and is prosecuting the law against vagrants and a number of chronic idlers in this city have been put to work. None have been sent to the penitentiary from this county yet on the charge of tramping or loafing, but idlers should take warning from these cases.

Letters From Our Soldiers

Letters for this column from Greene county's soldiers are solicited. No matter whether the letter is from a soldier in the training camp or from the battle trenches it is of interest, not only to his close friends but to the general public. Therefore if you receive a letter from a soldier and it contains interesting news pass it along to the newspaper and we will publish it so all his friends may enjoy it. Soldiers are also invited to write directly to the newspaper.

A relative here has received a letter from Lieutenant George S. Stutsman Jr., who is in the U. S. Cavalry and stationed near Camp Sam Fordyce, Texas. Lieutenant Stutsman went through the Officers training camp at Fort Benjamin Harrison and has been on the border ever since then. He is a son of Mr. and Mrs. G. F. Stutsman, Sr., of Sugarree township. The letter follows:

"Nothing much to do this morning so I will write you that letter that I promised you several months ago. Everything is reported quiet on the 'silvery Rio Grande this morning, so all I have to do is try to keep cool, quite a task in itself at this time of year in Texas. A few days ago a Lieutenant was killed and four men captured in Mexico just a few miles from where we are now encamped; so the Spicks are laying low now, for they know that we have blood in our eyes.

"We were scheduled to get back to

Fordyce the 16th, of the month, where we would at least have the pleasure of seeing a train pull in once a day, but with the recent frustration of plans I guess that we will spend our "Fourth of July" in the Spick country.

"Have you heard from lately? I received a card from him that was mailed from New York Decoration Day. I don't know whether they have started across yet or not. I'd give quite a lot to be with that 83rd division just now. I think that they are scheduled to see some fun before long.

"I suppose that Kilcare is running strong now, isn't it? I'd like to have a whirl on the old floor again with some of the old crowd. 'The scene of my childhood,' you know. But I doubt very much if I should know how to act in civilized society after seeing so much of the primitive in this God-forsaken country."

Lieutenant Stutsman's address is: "Lieut. G. F. Stutsman Jr., Troop G, 13th Cavalry, Sam Fordyce, Texas."

POLICE COURT

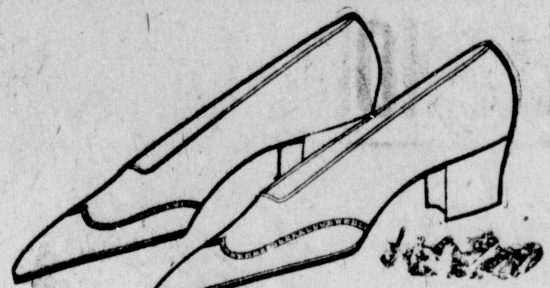

Elmer Jones, colored, a deserter from the United States Army, was taken in custody by Officers Day and Simms Thursday night and brought to this city for confinement in the lockup at Police Headquarters. He was taken to the Columbus barracks Friday.

Jones deserted from the 365th Infantry when that unit was located at Camp Grant, Rockford, Illinois. He had been at liberty for about a month, which classifies him as deserter. He is a Xenia colored man and was sent to the army with an increment of local draftees.

Jones' regiment is now located at Camp Upton, Long Island, New York and is expected to leave soon.

Two plain drunk cases were brought to the attention of Police Judge Smith Friday morning by the police. George Brant, white, arrested for plain drunk was fined \$1 and costs. Ed. Weller, white, arrested on a similar charge was given a like sentence. Both men paid their fines.

Doctor said, "Bio-feren had done wonders for her."

Case 1724--School teacher; Residence--Kentucky; severe operation; left her weak, anemic, nervous; low vitality. Physician recommended Bio-feren. Two weeks' treatment showed remarkable improvement. Doctor reported, "Bio-feren had done wonders for her."

Another case--Pennsylvanian, reports: "I have taken about one-half of the Bio-feren pellets and must confess that I feel like new."

A Kentuckian woman says: "I have taken Bio-feren regularly and feel much benefited. I can use my arms much better. However, can not get my hands to my head sufficiently to comb my hair, but I feel that I will soon be able to do that."

You want the vigorous health and ruddy beauty that is dependent on strength, nerves and red blood. Everybody does. Read those reports above, again. You, too, if you are dragged down in health and strength because of overwork, worry, nerves, and similar causes can rebuild your health and strength with Bio-feren. It is not a stimulant. It is a builder--a builder of better health.

Bio-feren contains some of the best ingredients known to the medical world, and is indicated for the treatment of run-down conditions due to overwork, worry, anæmia, melancholia, nervous debility, debility following infectious diseases, convalescence from acute fevers, etc.

There is no secret nor mystery about Bio-feren. Every package shows the elements it contains. Ask your physician about it, or have him write and we will send him complete formula.

And don't forget that Bio-feren is sold only on condition that you will return the empty package and allow us to refund your purchase price if, for any reason, you are not fully satisfied. Please bear that in mind for it is very important.

Bio-feren sells at \$1.00 for a large package. Your druggist can supply you or we will send it direct upon receipt of \$1.00; six packages for \$5.00, should you have any trouble in securing it. The Santal Remedies Company, Masonic Temple, Cincinnati, Ohio.

Cooper, are visiting her sister, Miss Beulah Cooper.

Messrs. Alfred Ogan and Ralph Ervin were home over Sunday from Dayton.

Some aviators from the Wright Field entertained the people of Jamestown with some fine flying late Tuesday afternoon. They came to help a fellow-airman who had landed in a stubble field just southwest of town, and had torn some holes in his machine. The holes were mended and about five o'clock the aviator started his motor, rose in the air, and flew home to the Wright Field.

Mr. Will McCall, Mrs. Mary Price and Mr. Ernest McCall motored to Columbus Wednesday and brought Mrs. Will McCall, who underwent such a serious operation recently, home with them. Mrs. Price, Mr. Ernest McCall and Bessie McCall left for Findlay, Ohio, Thursday, for a short visit.

Mr. Quince McClain spent Wednesday in Cincinnati.

Card of Thanks.

We wish to express our very great appreciation for the loving words and kind sympathy of our many friends and neighbors, during our sad bereavement of our beloved mother, Mattie Taylor. We wish to thank the pastor, Rev. J. N. Blackwell for his consoling words, also Rev. T. N. Johnson. Again we wish to thank the friends for their beautiful floral tributes. Especially do we wish to acknowledge the liberal gift of the friends and neighbors of Ross township. Also the sympathy shown by the presence of the Xenia teachers. We wish also to thank the choir and Mr. Holmes and Mr. Watkins for their efficient service.

Ambergris.

Ambergris is used both as a medicine and as a perfume. It is employed mainly by Aden perfumers for mixing with other cheaper scents and as an ingredient in incense cakes. As a medicine it is often taken in coffee or tea. Two of its principal medicinal virtues according to Aden belief, are the curing of colds and the strengthening of convalescents. There is a considerable quantity of ambergris brought into the Aden market, a great deal of which is exported to Europe, though no figures are available as to the amount of this commodity handled here. The Arab fishermen bring it in. They find it along the coast of the Red sea and Gulf of Aden from Hodeidah to Shukra.

Tigers Fond of the Water.

Tigers are extremely fond of bathing. In a zoo, if a tub be provided, they will eagerly make use of its facilities for ablution. They are first-rate swimmers, and in former days it was reckoned at Singapore that they "ate a Chinaman a night," swimming across from the mainland to get him.

Dog in the Wrong Church.

This little incident might well have happened in one of those remote Welsh districts where sectarian differences still run on narrow and bitter lines. On a recent Sunday afternoon a nice-looking but too inquisitive dog wandered into one of our chapels, and, though gently driven forth, still, like Mary's lamb, he lingered near. He was in the porch when the worshippers came out, and one of these, of the gentler sex, exclaimed, "Eh, what a bonny dog!" She patted his head, and then, with casual curiosity, looked at the name-plate on his collar. "Why!" she cried. "It's th' vicar's—egad, out w' him!" And the Anglican intruder got out promptly.—Cardiff Western Mail.

"BUSH LEAGUERS" SHOW UP REGULARS

It took a "bush-league" team of quait tossers to not only show up the regular Jamestown crowd, but also the team representing the Xenia Quait Club, an eight man team from Jamestown, composed of players who never participated in a game before, taking the measure of eight players from the local club at the grounds in this city, Friday night.

The Jamestown crew won 9 out of the 12 games played, running up a total of 240 points to 160 scored by Xenia. The local team was composed of R. L. Gowdy, William Howard, Albert Oglesbee, O. T. Custer, Milton Katz, Lee Taylor, Amos E. Faulkner and C. W. Whitmer. The Jamestown team was made up of Forest and Leonard Hieronimus, Jesse Leveck and Messers. Swaney, Campbell, Connor, Sheeley and Tidd.

The win of the Jamestown team placed them considerably higher on the totals for the season and the games now stand only two to one for Xenia. The total of wins is Xenia 24 and Jamestown 12.

A return contest between the same teams which played last night will be played at Jamestown next week, and the victors in Friday night's contest hope to repeat the trick and move their club up in the total percentage.

EXPRESS CONGESTED • WORSE THAN FREIGHT

In these days of congested traffic, government transportation and other causes for delayed train service, the express has lost its reputation of being the swiftest means of shipping and now both freight and express are "neck and neck" and neither one very swift.

An instance of shipping conditions which gives an interesting comparison between freight and express service is told by a local concern. This company ordered a quantity of material and the manufacturer, in order to supply the local concern offered to send fifty pounds of the articles by express and the balance of the 500 pounds by freight.

The 500 pound consignment reached the concern in this city Thursday and the smaller allotment, shipped via express has not yet made its appearance.

THE WOMAN WHO CHANGED

By JANE PHELPS.

Life What We Make It.
CHAPTER CXX.

I had heard mother say many times that life was what we made it. I never had agreed with her, but insisted it was what others made it. Now I was sure I was right and that mother was wrong. Wasn't George making my life miserable because he acted as he did?

When I replied that I was "growing older and wiser all the time," he returned:

"I will not be questioned, I thought you understood it. It seems I am mistaken, I had intended to remain at home tonight and ask for some music. But you have taken all desire to hear you play away; so I shall go out."

"To spend the evening with Mrs. Collins, again." The words came of their own volition.

"I had not intended to; but now that you suggest it I will see if she will receive me." Deliberately my husband walked to the telephone and called Mrs. Collins. Of course I listened although I was so angry I trembled like a leaf.

"Shall you be busy this evening?" he asked, then—"I had thought of inflicting myself upon you—yes thanp you, that will be delightful—in about half an hour." He waited a moment then resumed, "yes, I will do so with pleasure, good bye."

He immediately went upstairs and when he came down I saw that he had dressed. I said nothing, save to say good night when he spoke to me as he passed the library door.

"Life what we make it!" I said aloud, my heart full of bitterness. "A lot we have to do with it."

Unhappy Thoughts.
Left alone I sat idly thinking. Why was it that I could not control myself? I knew that George would not be questioned, yet I had deliberately sent him from me because of doing something I knew he thoroughly disliked. Then too, I wondered again as I so often had done just why George had married me. He had frankly said he hoped to make me over, and that had been all. But that did not give him a reason for making love to me, for wanting to marry me. Was it that the love men had for a woman never lasted like here's did for him?

George was totally without sentiment. He disliked any fuss made over him, and hated emotion of any kind. I was naturally emotional, and in spite of my efforts had not been able to always think before I spoke or acted. Now I thought bitterly I shall have to learn to count ten before I open my mouth. Perhaps then I won't say things to annoy and anger my husband.

When George told me he was going out on business I never thought of rebelling, and until Mrs. Ross had talked as she did I scarcely ever imagined he was anywhere else. But tonight he had not even tried to hide that he was going to another woman, had seemingly gloried in it, and had deliberately punished me by making an appointment where I could hear. It was almost unbelievable that he would do such a thing. And I had been the one who had suggested the idea to him. So he had said.

I could not read, I could set myself at nothing. Finally I decided that I wouldn't mope at home, that I too would go out.

I called Evelyn and found she was to be at home. Then I dressed for the street and called to Annie to walk over with me. Celeste was out and I knew George would be very angry if I went into the street at night alone, although it was but a short ways.

Pleasant Companions.
Evelyn was delighted to see me, and told Annie that Mr. Reeves would take me home. After a visit to my namesake, who was asleep, we played bridge, a three handed game. Kurtz and Evelyn were both in such good humor did so much to make the evening pleasant that the time slipped by very quickly.

About ten o'clock we had a charming dish supper, and I ate so heartily they both declared they didn't believe I had had any dinner. I hadn't eaten anything, but I said nothing to them of the reason.

It was after eleven when Kurtz left me at home. I had not taken my hat off when George came in. If he was surprised to see that I had been out he was no more so than I was that he came home so early.

"I went over to Evelyn's for the evening," I said without waiting for any questions. I was lonely, and we had such a nice evening."

"I am very glad that you did, I called you up and James said you had gone out."

So that was the reason he came home early because he thought I was out and he could perhaps find fault with me.

How mistaken I was he proved a few minutes later.

"I called up to see if you would like to go out somewhere for a little supper. You ate no dinner at all!"

"But—how—could you if you?"

"Never mind how I could, I wanted to and was rather disappointed that you had gone out. I am sorry we were at cross purposes tonight, Helen," that was all, but it was so much more than I expected, or perhaps deserved that the tears came into my eyes. He quietly kissed me and wiped them away, saying nothing. Would I ever understand him?

How The Bayonet Lost a Great Battle

BAYONETS, first made at Bayonne, France, whence they get their name, to begin, were almost as dangerous to the army with them as to its foe.

Fashioned with a solid butt, to be jammed into the muzzle, it rendered a gun useless for firing.

The butt was soon changed to a socket, but not before the new fangled bayonet brought the English army to grief at Killiecrankie.

The English soldier found the bayonet a poor fit, hard to get into his gun; and when he got it in, hard to get out. When he had to bayonet, he couldn't bayonet; when he had to shoot, he couldn't shoot.

**GOODRICH
SERVICE VALUE TIRES**

The bayonet experiment gave the Scots the battle. To safeguard tire users against the chance of experiment, Goodrich Test Car Fleets put the road test to Goodrich Tire, to make them in word and deed SERVICE VALUE TIRES.

Goodrich sees but one tire value, SERVICE VALUE—That is, what a tire proves it is worth to the motorist on his car and on the road, in comfort, economy, dependability, and durability.

All Goodrich skill and sincerity build up SERVICE VALUE, whether you get SILVERTOWN CORD TIRES, or BLACK SAFETY TREADS, you get SERVICE VALUE TIRES.

Gain mileage, and the security of knowing your tires will not fail, by demanding SERVICE VALUE TIRES.
